Library Newsletter

May 2025

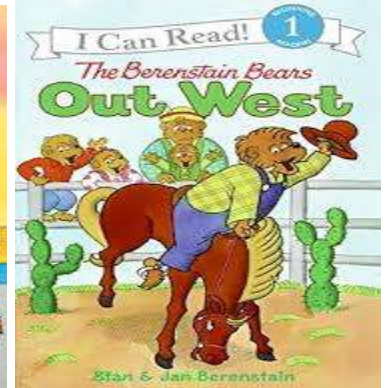

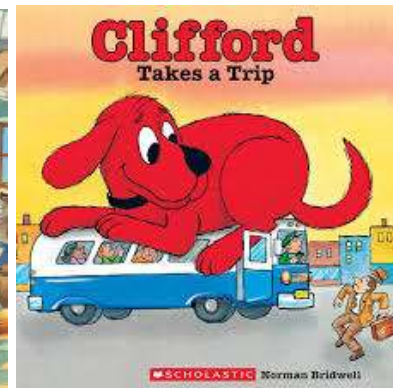

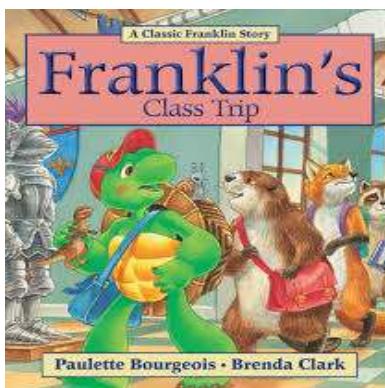

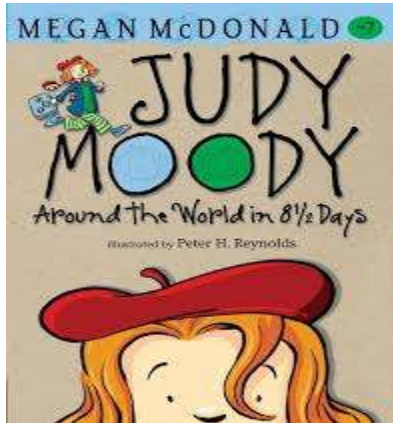

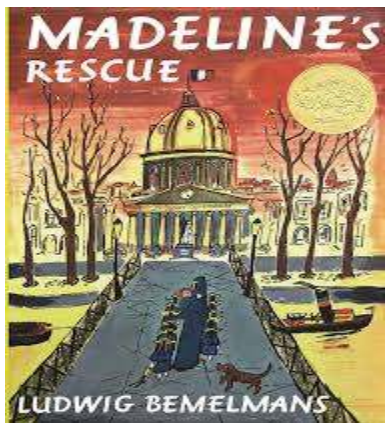

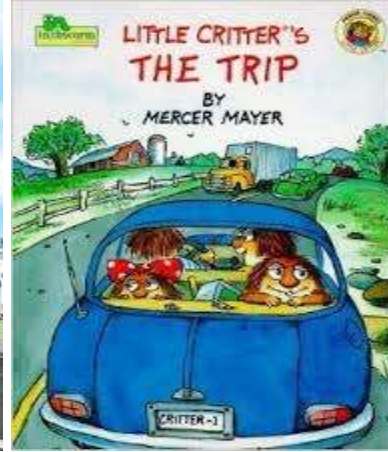

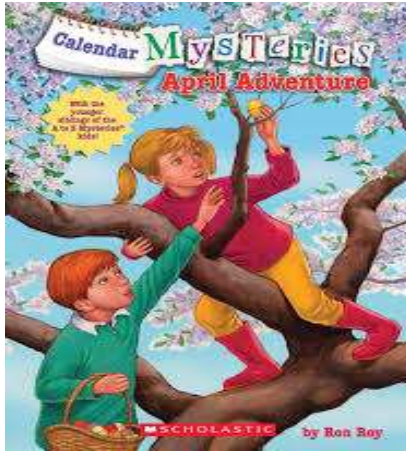

This month we will be showcasing literature that connects with the idea of “I Am An Adventurer.” An adventurer is a person who enjoys or seeks exciting experiences. These experiences can be found in and with nature, done with a sport, or were taken by people in history. The “Look at These Books!” section, we are showcasing books about going camping. Throughout the library you will find books about the experiences mentioned above. We also are highlighting our newest series entitled “You Choose” that allows students to decide their own adventure within the book. This month, we hope you take some time to think about what adventures you and your family may have this coming summer or in the future!
